CONTENTS OF VOLUME 140

No. 1, JULY, 1941

PAGE

ZECHMEISTER, L., and POLGÁR, A. Silk oak flowers as a source of β-carotene 1

WEICHSELBAUM, T. E., and SOMOGYI, MICHAEL. A method for the determination of small amounts of ketone bodies 5

HUGHES, HETTIE B. A gravimetric method for the determination of carbonyl groups in ketosteroids 21

SINGAL, SAM A., and ECKSTEIN, H. C. The lipotropic action of some sulfur-containing amino acids and related substances 27

TREADWELL, C. R., and ECKSTEIN, H. C. Sterol metabolism in young white rats. IV. The effect of high and low fat diets on the cholesterol metabolism of four generations of white rats 35

LI, CHOH HAO, LYONS, WILLIAM R., and EVANS, HERBERT M. Studies on pituitary lactogenic hormone. VI. Molecular weight of the pure hormone 43

SEIBERT, FLORENCE B., and WATSON, DENNIS W. Isolation of the polysaccharides and nucleic acid of tuberculin by electrophoresis .. 55

STEADMAN, L. T., HODGE, HAROLD CARPENTER, and HORN, HELEN WILSON. Spectrochemical studies of potassium in bone and tooth substance 71

KERR, STANLEY E. Studies on the phosphorus compounds of brain. II. Adenosine triphosphate 77

FISH, WILLIAM R., and DORFMAN, RALPH I. Metabolism of the steroid hormones. I. The conversion of α-estradiol to estrone by the guinea pig 83

PECK, ROBERT L., and ANDERSON, R. J. The chemistry of the lipids of tubercle bacilli. LXIV. Concerning phleimycolic acid 89

WINTER, IRWIN C., and CRANDALL, LATHAN A., JR. The question of the portal absorption of fatty acids 97

NIVEN, CHARLES F., JR., SMILEY, KARL L., and SHERMAN, J. M. The polysaccharides synthesized by *Streptococcus salivarius* and *Streptococcus bovis* 105

BEAR, RICHARD S., and CORI, CARL F. x-Ray diffraction studies of synthetic polysaccharides 111

BALL, ERIC G., TUCKER, HELEN F., SOLOMON, A. K., and VENNESLAND, BIRGIT. The source of pancreatic juice bicarbonate 119

TOENNIES, GERRIT, and KOLB, JOSEPH J. Methionine studies. VI. *dl*-Methionine sulfone 131

CHESLEY, LEON C. The determination of thiocyanate in biological fluids 135
STETTEN, DEWITT, JR. Biological relationships of choline, ethanolamine, and related compounds 143
SEALOCK, ROBERT RIDGELY, PERKINSON, JESSE D., JR., and BASINSKI, DANIEL H. Further analysis of the rôle of ascorbic acid in phenylalanine and tyrosine metabolism 153
PFIFFNER, J. J., and NORTH, H. B. The isolation of a new α,β-unsaturated ketone from the adrenal gland 161
RAFFERTY, M. A., and MACLACHLAN, P. L. Influence of increased environmental temperature on blood sugar, liver glycogen, and absorption in rats following the administration of glucose and starch 167
SOLOMON, A. K., VENNESLAND, BIRGIT, KLEMPERER, FRIEDRICH W., BUCHANAN, JOHN M., and HASTINGS, A. BAIRD. The participation of carbon dioxide in the carbohydrate cycle 171
LOWRY, OLIVER H. A quartz fiber balance 183
HEGSTED, D. MARK, BRIGGS, G. M., ELVEHJEM, C. A., and HART, E. B. The rôle of arginine and glycine in chick nutrition 191
DANN, W. J., and HANDLER, PHILIP. The quantitative estimation of nicotinic acid in animal tissues 201
HERSHBERG, E. B., WOLFE, JOHN K., and FIESER, LOUIS F. Polarographic determination of dehydroisoandrosterone and other 3-hydroxy-Δ^5-steroids 215
BARNES, RICHARD H., MILLER, ELMER S., and BURR, GEORGE O. The absorption and transport of fatty acids across the intestinal mucosa. 233
BARNES, RICHARD H., MILLER, ELMER S., and BURR, GEORGE O. The adrenals and fat absorption 241
BARNES, RICHARD H., MILLER, ELMER S., and BURR, GEORGE O. The influence of the adrenals on the transport of fat into the liver 247
LEVENE, P. A., and KUNA, MARTIN. Configurational relationship of 2-methylheptanoic and 4-methylnonanoic acids 255
LEVENE, P. A., and KUNA, MARTIN. Configurational relationships of aliphatic amines 259
LEVENE, P. A. On chondrosin 267
LEVENE, P. A. On the carbohydrate group of egg proteins. III 279
BAERNSTEIN, HARRY D., and GRAND, J. A. The effect of lead acetate on oxygen uptake of rat liver slices 285
NEURATH, HANS, COOPER, GERALD R., SHARP, D. G., TAYLOR, A. R., BEARD, DOROTHY, and BEARD, J. W. Molecular size, shape, and homogeneity of the rabbit papilloma virus protein 293

Letters to the Editors

DOUNCE, ALEXANDER L. An improved method for recrystallizing urease 307
SUTHERLAND, E. W., COLOWICK, SIDNEY P., and CORI, CARL F. The enzymatic conversion of glucose-6-phosphate to glycogen 309

Woolley, D. W. Manganese and the growth of lactic acid bacteria. 311
Waelsch, Heinrich. The excretion of keto acids..... 313

Proceedings of the American Society of Biological Chemists... iii

No. 2, August, 1941

Mackinney, G. Absorption of light by chlorophyll solutions..... 315
Vassel, Bruno. A colorimetric micromethod for the estimation of cystine and cysteine..... 323
Orent-Keiles, Elsa, and McCollum, E. V. Potassium in animal nutrition..... 337
Haurowitz, Felix, Schwerin, Paula, and Yenson, M. Mutahhar. Destruction of hemin and hemoglobin by the action of unsaturated fatty acids and oxygen..... 353
Nelson, Norton, Grayman, Isabelle, and Mirsky, I. Arthur. The utilization of acetone bodies. IV. The relation between concentration and the rate of β-hydroxybutyric acid utilization by the rat..... 361
Bodansky, Meyer, Duff, Virginia B., and McKinney, Margaret G. The formation of creatine from glycocyamine in the liver. Experiments with nephrectomized rats. Intestinal excretion and bacterial decomposition of creatine and creatinine..... 365
Drabkin, David L. Spectrophotometric studies. VII. The establishment of precise spectrophotometric constants for cytochrome *c* and hemin derivatives, upon an iron basis..... 373
Drabkin, David L. Spectrophotometric studies. VIII. The microdetermination of iron in cytochrome *c* and hemin preparations... 387
Baer, Erich, and Fischer, Hermann O. L. Studies on acetoneglyceraldehyde, and optically active glycerides. IX. Configuration of the natural batyl, chimyl, and selachyl alcohols..... 397
Miller, Gail Lorenz, Behrens, Otto K., and du Vigneaud, Vincent. A synthesis of the aspartic acid analogue of glutathione (aspartthione)..... 411
Mason, Harold L., and Williams, Ray D. The effect of ingestion of nicotinic acid on the determination of thiamine in urine by the thiochrome method..... 417
Pearson, P. B. The pantothenic acid content of the blood of Mammalia..... 423
Bulger, Harold A., and Johns, Helen E. The determination of plasma uric acid..... 427
Bernheim, Frederick, and Bernheim, Mary L. C. Note on the oxidation of various sugars by brain tissue..... 441
Scott, D. A., and Mendive, J. R. Chemical observations on carbonic anhydrase..... 445
Woolley, D. W. A method for the estimation of inositol..... 453
Woolley, D. W. A study of the biological specificity of inositol.... 461

EICHELBERGER, LILLIAN. The distribution of body water and electrolytes in skeletal muscle of dogs with experimental hydronephrosis following injections of potassium salts 467
PACE, NELLO. Pigments of the marine diatom *Nitzschia closterium* 483
HITCHINGS, GEORGE H., and FISKE, CYRUS H. The determination of the purines 491
SOBEL, ALBERT E., KRAUS, GEORGE, and KRAMER, BENJAMIN. The determination of sodium in the presence of phosphates 501
LAUFFER, MAX A., and DOW, R. B. The denaturation of tobacco mosaic virus at high pressures 509
BOCK, JOSEPH C. A micromethod for the determination of urea nitrogen 519
GOEPFERT, GEORGE J. Studies in the mechanism of dehydrogenation by *Fusarium lini* Bolley. XIX. Dehydrogenation of higher primary and secondary alcohols 525
EAKIN, ROBERT E., SNELL, ESMOND E., and WILLIAMS, ROGER J. The concentration and assay of avidin, the injury-producing protein in raw egg white 535
DEUEL, HARRY J., JR., and HALLMAN, LOIS F. Studies on ketosis. XIX. Further studies on endogenous ketonuria in the rat 545
HALLIDAY, NELLIE, and DEUEL, HARRY J., JR. The presence of free and combined thiamine in milk 555
ANDERSON, ERNEST, KESSELMAN, JOSEPH, and BENNETT, EMIL C. Polyuronide hemicelluloses isolated from sap-wood and compression wood of white pine, *Pinus strobus*, L. 563
ANDERSON, ERNEST, GILLETTE, LESLIE A., and SEELEY, MILLARD G. The mucilage from Indian wheat, *Plantago fastigiata* 569
TATUM, E. L., and HAAGEN-SMIT, A. J. Identification of *Drosophila* v^+ hormone of bacterial origin 575
KURNICK, NATHANIEL B. Permeability of the human erythrocyte to sodium and potassium 581
BUTTS, JOSEPH S., and SINNHUBER, RUSSELL O. Studies in amino acid metabolism. VII. The metabolism of *l*(+)-arginine and *dl*-lysine in the normal rat 597
MORTON, M. E., PERLMAN, I., and CHAIKOFF, I. L. Radioactive iodine as an indicator of the metabolism of iodine. III. The effect of thyrotropic hormone on the turnover of thyroxine and diiodotyrosine in the thyroid gland and plasma 603
VICKERY, HUBERT BRADFORD, SMITH, EMIL L., HUBBELL, REBECCA B., and NOLAN, LAURENCE S. Cucu.bit seed globulins. I. Amino acid composition and preliminary tests of nutritive value 613
DU VIGNEAUD, VINCENT, COHN, MILDRED, CHANDLER, JOSEPH P., SCHENCK, JAY R., and SIMMONDS, SOFIA. The utilization of the methyl group of methionine in the biological synthesis of choline and creatine 625
DU VIGNEAUD, VINCENT, HOFMANN, KLAUS, MELVILLE, DONALD B., and GYÖRGY, PAUL. Isolation of biotin (vitamin H) from liver 643

ADAMS, MARK H., REEVES, RICHARD E., and GOEBEL, WALTHER F. The synthesis of 2,4-dimethyl-β-methylglucoside 653
LASKOWSKI, MICHAEL, and FROMAGEOT, CLAUDE. Some properties of desulfurase 663

Letters to the Editors
